

ASHRAE TC 2.3 Handbook Subcommittee Meeting Minutes
Tuesday, 30-January, 2017, 4:15 – 6:00 pm
Las Vegas, NV, Venice

Attendees:

Brian Krafthefer, Gemma Kerr, Paula Levasseur, Chang Seo Lee, Ashish Mathur, Sanjeev Hingorani, Faud Parvin

Discussion

- Chapter 11 submitted last year. Waiting for galleys from ASHRAE- expected in the Feb/March 2017 time frame. Gemma and Brian will look at the comments when received.
- Started Chapter 46 review. Submission expected in summer of 2018 for 2019 release
 - Gemma finalizing the terminology document ISO 2946-by week of Feb 7. Gemma to compare terminology definitions with Chapter 46 for further discussion. Also check with consistency with SSPC 145.
 - Gaseous Contaminants section to be reviewed by Chang Seo to see where we overlap with Chapter 11.
 - Brian to check Fig 1.
 - Chang Seo to review Equations 2-7- compare with ASHRAE Std 62.1
 - Brian to review Section 3- Problem Assessment-
 - Paula to review Section 4 Contamination Strategies
 - Paula /Sanjeev/to review Section 5 all except ozone and UV PCO (Ashish); For ozone refer to 62.1 and OSHA (indoor)
 - Ashish/Paula to review Section 6 - Equipment- update drawings (ref NAFA). Update bypass section. Brian to check source of these figures
 - Everyone reviews Section 7 - Design. Replace Table 8; update location
 - Special cases Section 7- needs changed
 - Energy section needs to be updated
 - Economic considerations table title to change- to be updated to include powered devices
 - Installation & Commissioning, Section 10, - everyone to review. Change title of particular filters

Brian to work with Michael Vaughan to set up a telecon around mid March for an afternoon meeting- via doodle poll

Meeting adjourned at 6:00 pm
